Living and Non-living Things

Living things

Living things are things that are alive. They need specific things to survive like food, water and air. They can grow, move and reproduce. Things like people, animals and plants are living.

Non-living things

Non-living things are not alive, they do not need water, food or air. They do not grow, move or reproduce.

Living and Non-living Things

Put a circle around the living things and an X on the non-living things.

Living and Non-living Things
