

# How to Use

This Deserts Around the World Compare and Contrast Notebook is designed to help students research and discover some of the many deserts found around the world. To get started, students need to locate the first two deserts they are working with. Once they've done so, they can fill out the first page that includes research questions and room to record things such as the types of plants and animals found in these deserts, the average precipitation and temperature in each, and other interesting facts.

The second assignment is to complete one or two Venn diagrams that illustrate some of the similarities and differences between the deserts such as what animals are present in each and what animals are unique to each. They can fill out the diagram with as much of the information learned as desired.

The third assignment is to draw a picture of one of the deserts, including some of its plants and animals, and to note which animals and plants they included.

The final assignment is for students to create four flashcards that can help them remember key information about plants or animals they discover.

A blank set of worksheets are included at the end for comparing and contrasting additional deserts students are studying.

# Arabian Desert & Atacama Desert

Where is the Arabian Desert located? \_\_\_\_\_

Where is the Atacama Desert located? \_\_\_\_\_

What kinds of animals can you find in the Arabian Desert? \_\_\_\_\_

\_\_\_\_\_

What kinds of plants can you find in the Arabian Desert? \_\_\_\_\_

\_\_\_\_\_

What is the average temperature in the Arabian Desert? \_\_\_\_\_

What is the average precipitation in the Arabian Desert? \_\_\_\_\_

What kinds of animals can you find in the Atacama Desert? \_\_\_\_\_

\_\_\_\_\_

What kinds of plants can you find in the Atacama Desert? \_\_\_\_\_

\_\_\_\_\_

What is the average temperature in the Atacama Desert? \_\_\_\_\_

What is the average precipitation in the Atacama Desert? \_\_\_\_\_

What other interesting facts did you learn? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Compare and contrast the types of animals and plants found in these two deserts.
