

Create Your Own 9 Times Table Fair!

Now it's your turn to make your own fair! With the help of a parent, teacher or an older siblings, you can set up a mini "fair" at home, in your backyard, or even in your classroom.

1. Create Your Fair Games

- Choose a few fun "booths" to set up.
- Choose what's in each booth (snacks, small toys, or pretend items).
 - Food stands
 - Game booths
 - Souvenir or toy shop

2. Decide Tickets & Items

- Decide how many tickets each booth will charge. Make sure each works with a $9\times$ fact!

3. Make Tickets

- Create or cut out tickets.
- Make enough tickets for each player to use for their purchases.

4. Buy Tickets at the Ticket Booth

- Each player starts with some money or points (real or pretend).
- Go to the ticket booth and "buy" tickets in multiples of 9.
- Example: 9 tickets cost \$1, 18 tickets cost \$2, 27 tickets cost \$3, etc

5. Play & Practice the 9 Multiplication Tricks in the Story

- Buy items or play games using the 9 facts
- Try using all the 9 tricks in the story
- Which one do you like using the best?

6. Write it Down

- Write down the multiplication facts you use in a notebook - just like just like Hattie did in the story.

✨ **Bonus Challenge:** Can you create your own new trick for remembering a 9 fact? Share it with your family when you are at your fair!
